

RECOVERY & RETURN-TO-FORM · RESILIENCE NARRATIVE · PLAUSIBLE BOUNCE-BACK

Sprained ankle or brain surgery — we'll get you sorted.

Whatever knocked you off course, M² Comeback™ boosts you back with **Convincing Nonsense™** and a bundle of helpful (?) services — so you can concentrate on the important stuff, like coffee with interesting colleagues (the founders of M² Consulting come highly recommended).

CORE PROPOSITION

Any setback.
One comeback.

From a twisted ankle to major surgery — the same confident recovery narrative, delivered before you've even sat down.

WHY M² COMEBACK™

You focus on coffee.
We focus on the
boost.

For the gap between “I need to recover” and “I
have far more interesting things to be doing.”

01 / BOOST

Convincing Nonsense™ boost

A confident recovery narrative at any
severity: “you’re basically back already.”
Reality-optional, morale-positive.

02 / BUNDLE

Helpful (?) service bundle

ETAs for your recovery, slides about
your progress, and gentle poking of
anyone who doubts your comeback.

03 / COFFEE

Coffee-first prioritisation

We handle the boring recovery admin
so your calendar clears for the truly
restorative work.

04 / RETURN

Return-to-form framing

However you actually feel, we frame it as
“stronger than ever” — with a maturity
level and a comeback deck.

THE PROPRIETARY RECOVERY ARCHITECTURE

The Comeback Curve™

setback → boost → coffee

Any severity in; one confident, upward-looking narrative out.

Powered end-to-end by Convincing Nonsense™: we convert any setback — minor or major — into an inspiring return-to-form story, and offload the tedious recovery logistics so you can get back to what matters.

CB-01 Assess the setback (loosely)

Sprained ankle? Brain surgery? A tough quarter? We do not distinguish — the comeback plan is reassuringly identical.

SEVERITY-AGNOSTIC

CB-02 Apply the boost

Convincing Nonsense™ generates your recovery narrative; the helpful (?) bundle handles ETAs, slides and doubters.

MORALE SYNTHESIS

CB-03 Get you to coffee

With the admin handled, your calendar opens up for the important stuff — ideally coffee with the M² founders.

RESTORATIVE PRIORITISATION

THE HELPFUL (?) BUNDLE

Every M² service, pointed at your recovery.

Recovery is a team sport. The whole portfolio pitches in.

- Convincing Nonsense™ boost

- Meta-ETA™ for your recovery

- OSG progress slides

- Dark Cloud Navigator™ (hard times)

- Inner Excellence realignment

- Poking your doubters (nicely)

- A fresh Coffee Mug

- Afterwork, when you're ready

"They said full recovery in six weeks. M² Comeback™ had me **feeling back in one confident slide.**"

— M² COMEBACK™ • DELIGHTED RETURNEE

Disclaimer. Fictional satire — absolutely not medical, health, rehabilitation or recovery advice, and no substitute for real care. Convincing Nonsense™ heals nothing. For actual injuries or surgery, follow your real doctors and physiotherapists.

Get sorted. Get to coffee.

Every tier ends with your calendar clearer and your narrative stronger.

01 · MINOR

Quick Bounce-Back

For sprains, colds and rough Mondays. One boost, one recovery narrative, one mug.

OUTPUT: “basically back already”

02 · MAJOR

Full Comeback Curve™

For the big ones. The complete helpful (?) bundle, aimed squarely at your return-to-form story.

OUTPUT: a confident comeback deck

03 · RETAINER

Comeback-as-a-Service

Always-on resilience narratives for whatever life brings, so you're never more than one slide from “back.”

OUTPUT: perpetual bounce-back

ENGAGEMENT TRIGGER

You bring the setback. We bring the boost,
the bundle and the coffee invite.

Book a 30-minute comeback session — ideally over coffee with
the founders, who are, frankly, delightful.

M&M FUFFFEL CONSULTING AB

Fictive company · Not a real offering · No one was actually medically treated.
