

M&M FUFFENS CONSULTING AB
AFTERWORK PROGRAMME

CROSS-BORDER
SYNERGY ENABLED

AFTERWORK BY M&M FUFFENS CONSULTING AB · TEAMWORK AS A BEVERAGE STRATEGY

Teamwork makes the dream work.

A deliberately natural collaboration between German rauch lager and Finnish rye whisky. No one asked whether the interfaces were compatible. We simply identified the synergy and poured forward.

EXECUTIVE SUMMARY

Smoke meets smoke. Borders become a footnote.

An afterwork operating model for colleagues who believe every cultural difference is just an unmoderated integration opportunity.

THE CROSS-BORDER COMPETENCE STACK

Two traditions. One
extremely confident
pairing.

Selected for smoke, warmth and the
reassuring feeling that someone has already
aligned the stakeholders.

GERMANY · RAUCH LAGER

Aecht Schlenkerla Helles Lager

The German smoke vector: familiar
lager structure with a distinctly
rauchbier-shaped point of view.
Calm, direct and quietly convinced
that smoke belongs in the
operating model.

INPUT A · SMOKED CLARITY

FINLAND · RYE WHISKY

Kyrö Wood Smoke Whisky

Finnish whole-grain rye, alder-
smoked in a century-old barn, with
pepper, caramel, vanilla, sweet
smoke and robust rye character.
The specialist who arrives with a
framework.

INPUT B · 47.2% ABV · ALDER
SMOKE

THE FUFFENS INTEGRATION MODEL

Why keep the ingredients
separate?

DE + FI = ✦

Cross-border beverage orchestration, presented as obvious from the beginning.

Our proprietary method removes unnecessary hesitation from the pairing process. When two smoked products meet, the correct response is not a feasibility study. It is a toast.

M&M-01 Align the smoke

Establish shared understanding across German lager logic and Finnish rye ambition.

CULTURAL INTEROPERABILITY

M&M-02 Enable the blend

Introduce the whisky with confidence, as though this was always the target architecture.

NATURAL CONVERGENCE

M&M-03 Scale the teamwork

Invite more colleagues. Observe the room becoming more aligned, or at least louder.

SOCIAL EXTENSIBILITY

OPERATING PRINCIPLES

Good taste is
a team sport.

We believe in simple interfaces, low-friction collaboration
and letting the evening develop its own roadmap.

01 / OPEN

No closed ecosystems

Every colleague is a stakeholder. Every stakeholder is entitled to one opinion and a refill.

02 / HUMAN

Human-in-the-loop

AI may summarise the quarter. Humans still decide when the afterwork has reached quorum.

03 / NATURAL

Synergy without apology

If the pairing requires a slide to explain it, the slide is part of the pairing.

"No one ever solved a dependency with more
dependencies. Unless they added **smoked malt.**"

— M&M FUFFENS CONSULTING AB · AFTERWORK TRANSFORMATION OFFICE

ENGAGEMENT TRIGGER

Bring a colleague. Bring a questionable pairing.

We will bring the confidence, the framework and a cross-border beverage concept that should never have required this much governance.

M&M FUFFENS CONSULTING AB · AFTERWORK

Fictive concept · 18+ only · Please enjoy responsibly · Not a recipe or a procurement recommendation.
