

M&M FUFFFEL CONSULTING AB

● FICTIVE SINCE 2026 · DECISION-READY

AI-ENABLED TRANSFORMATION · SWEDISH PRECISION · PLAUSIBLE DENIABILITY

We turn complexity into a confident slide.

M&M Fufffel Consulting AB combines program management, infrastructure intuition and **Convincing Nonsense™** to make every ambiguous situation feel strategically intentional.

CORE PROPOSITION

2× Mattias

One shared instinct for turning constrained capacity, competing priorities and unfinished baselines into a roadmap with arrows.

THE SHARED COMPETENCE STACK

Operational gravity, strategic sparkle.

Built for the space between “we need a plan” and “who actually owns this?”

01 / PM

Program choreography

Aligning stakeholders, milestones and escalation paths until the room mistakes motion for progress.

02 / INFRA

Infrastructure intuition

Knowing that every “simple” decision hides a baseline, a dependency and at least three owners.

03 / CAPACITY

Allocation theatre

Re-prioritising scarce hardware, test channels and budgets without technically calling it chaos.

04 / AI-ISH

Automation optimism

Turning a spreadsheet, a workflow and one slightly overconfident prompt into “an intelligent operating model.”

OUR PROPRIETARY DECISION ARCHITECTURE

The M² Decision Model

 $F^0 \rightarrow F^\infty$

Every possible corner cut — now with governance.

Why over-engineer the F-model when you can create a parallel decision universe in which “good enough” is a formally recognised maturity level?

M²–01 Minimise the question

Reduce the problem until it can be solved with a status colour, a hunch and a meeting invite.

SCOPE COMPRESSION

M²–02 Maximise the framing

Rename the remaining uncertainty as an opportunity, an insight or an “emerging dependency.”

NARRATIVE INFLATION

M²–03 Move with confidence

Decide now. Validate later. If challenged, refer to the model’s dynamic treatment of incomplete information.

EXECUTIVE VELOCITY

“We don’t eliminate uncertainty. We give it a
workstream”

– M&M FUFFFEL CONSULTING AB • INTERNAL THOUGHT LEADERSHIP UNIT

SELECTED SERVICE LINES

Solutions for strategically busy organisations.

All engagements include a pre-read, a post-read and at least one new acronym.

01 · AI & LANGUAGE

Convincing Nonsense™ as a Service

We translate "I don't know yet" into a compelling AI-enabled narrative with optional maturity curve.

OUTPUT: polished ambiguity

02 · GOVERNANCE

M² Decision Acceleration

F-model corner cutting, formalised.
Fewer questions, shorter decks,
identical levels of confidence.

OUTPUT: decision-shaped object

03 · INFRASTRUCTURE

Baseline & Dependency Orchestration

We map the hardware, humans and hidden blockers required to make "just one more environment" happen.

OUTPUT: controlled meck

ENGAGEMENT TRIGGER

You bring the fog. We bring the framework.

Book a 30-minute alignment session. We will leave you with a sharper problem statement, a softer deadline and an action list that looks excellent in Teams.

M&M FUFFFEL CONSULTING AB

Fictive company · Not a real offering · No corners were harmed in this decision model.
